WEDNESDAY, MARCH 17, 1897.

Dr. Samps. Pope has turned up in Washington, D. C. Samps. is hunting a job, and wants it bad.

It would seem as if the only way to prevent trusts would be the Chinese way—make it a criminal offense even to organize one, and then cut off the heads of those engaging in it.

The students of Averbey College have invited W. J. Bryan, of Nebraska, to deliver the annual address at their next commencement. They have not heard from him up to this date.

The 56th Congress convened in extra session in Washington on Monday. Mr. Reed was elected speaker. The new tariff bill will be reported at once, and will not doubt soon be a law.

A few thousand lively young Americans, full of courage and of the spirit of adventure, might perhaps find agreeable employment in the Philippines. The war tariff bill will be reported at once, and will not doubt soon be a law.

The privilege fertilizer tax for the first two months of the year already amounts to \$40,000, and the possibilities are that it will exceed the receipts of last year. If so, Cleon's income will be larger than last year.

There is a bicycle cannon among the new inventions. It is mounted upon a carriage with pneumatic tires and pedal mechanism, and is quite portable. A small cannon can be moved with great celerity in this way.

Comptroller General Norton has made up an estimate, based on information lodged in his office, as to the probable income from the income tax bill recently passed by the Legislature. He says that the total revenue from this source will be between \$100,000 and \$125,000.

The State constabulary has been thoroughly reorganized and the force has been increased. A. C. Samps. is now one of the constables now out of a job. J. H. Fant, of Anderson, was reappointed chief for the upper division, and W. N. Baird chief of the lower division.

In Minnesota there is a girls' school for agriculturists, which is, as far as known, the only one in the country. It is quite satisfactory. The students receive instruction in cooking, canning, household chemistry, entomology and sewing.

A lot of freak legislation has been attempted to be passed this year, from the bill in a Western State forbidding women to ride a bicycle to the one introduced into Congress forbidding newspapers to publish prize fight news. It would be more to the point to try to educate readers to prefer something better.

Hon. Adlai Stevenson has gone out of the office of Vice-President with the respect and esteem of the nation. During the four years he presided over the Senate he managed to avoid such acts as would cause criticism. He presided with confidence and fairness, and demonstrated that he was well worthy of the honors placed upon him.

The Pickens Sentinel has changed hands. J. E. Boggs, Esq., stepped down out of journalism, and is succeeded by Homer A. Richey and J. L. Thompson as publishers and Charles E. Robinson as editor. The State loses an able editor in Mr. Boggs. We extend our right hand of fellowship to the new publishers and editor, and wish them much success.

Mr. E. V. Smalley, in The Forum, asks and answers a very important question. It is, "What are normal times?" Mr. Smalley replies that the times we had in the flush days of California gold and those during and following the war were exceptionally prosperous times and are not likely to occur again. Normal times are therefore those we have upon us now, and we should accept them and make the best of them henceforth.

With the failure, already clearly foreshadowed, of the wheat crop in Australia, there will necessarily be a heavy demand in that country for American grain during the next year. The Australian shortage, roughly estimated at 5,000,000 bushels, will open a ready market for the wheat growers of the Pacific slope, and will naturally tend toward higher prices for the American cereal all over the country.

The Board of Trustees of Clemson College has decided to refund \$100,000 which it drew over the appropriation a few years ago. The Legislature had appropriated \$200,000, but by a clerical error, it was made \$100,000. The extra \$100,000 was used, but it will now be returned. The College will have sufficient funds this year as the privilege tax amounts to nearly \$50,000. There are 330 students in attendance and every thing is progressing nicely.

Crete wants nothing so much as to be annexed to Greece, yet it belongs, yet the wicked, selfish powers of Europe are simply too mean to allow this. They propose instead a measure of "autonomy" for Crete, a mere speck of an island, no larger as the smallest State in the American Union. They might talk a year—the powers—and they would never be able to make any reasonable person in Europe or America understand that they had any right or business to meddle between Crete and Greece.

Last Monday Postmaster General Gary made the definite announcement to the Associated Press, that the Administration, after deliberation, has decided to adhere to the four-year tenure of office for all postmasters. He stated that except in all cases where removal of a postmaster was required on account of delinquency, incompetency or other instances of unsatisfactory conduct or administration of office, all postmasters of the fourth class, as well as those of presidential appointment would be allowed to serve out a term of four years.

The Atlanta Constitution recently published interviews with prominent Democratic leaders as to what should be the policy of the Democratic Senators and Representatives as to legislation. They are practically unanimous in the opinion that the Republicans should be given full rope, and allowed to put into law anything offered by them, without any filibustering or technicalities by the Democrats. Of course, the Democrats will present arguments against anything that does not meet their approval. We believe that it will be a wise policy to let the Republicans do what they please, and then they will be held solely responsible by the people for whatever may be the consequences. The Republicans have promised that if their plans are allowed to become law, given a fair trial will follow. They should be given a chance.

The new Court House and Jail election takes place April 3rd. Don't forget it.

The New Labor Law.

Mr. E. W. Williams, the patriarch, job says: "Great men are not always wise, neither do they understand judgment."

Mr. L. J. Moorehead is now in Alabama with a great many instances of the Legislature did a wise and just thing in enacting a new labor law, but also for the serious defects it contains.
